Terminology key

Statutory prescribed – legislation provides that the local authority charge for providing a service and either (a) the charge is prescribed (i.e. set eg. £100) or (b) the range is prescribed.

Statutory discretionary (or statutory costs recovery) - legislation provides that you may charge for providing a service but the amount of the charge is discretionary, within the remit of the legislation – the charge may be limited to cost recovery, reasonable cost or based on consideration of prescribed matters eg. consideration of rental value of land for allotments.

Discretionary – here the authority is not obliged to provide the service but if it does so then the charges must be based on costs recovery, based on the statutory power to charge in Local Government Act 2003/Localism Act 2011

Statutory discretionary (or statutory costs recovery) - legislation provides that you may charge for providing a service but the amount of the charge is discretionary, within the remit of the legislation – the charge may be limited to cost recovery, reasonable cost or based on consideration of prescribed matters eg. consideration of rental value of land for allotments.

Discretionary – here the authority is not obliged to provide the service but if it does so then the charges must be based on costs recovery, based on the statutory power to charge in Local Government Act 2003/Localism Act 2011

Our internal costs will not have changed in this period. Proposing to change this to an annual fee to reflect the fact that in managing these care arrangements, the Council is incurring a series of administrative costs, including the process to pay providers.		

Adult Social Care	Charges for Universal Deferred Payments	Social Care	Standard hourly administrative and processing charge	Hourly	£24.37	£0.94	4.03%	The interest rate for deferred payments was set at 1% from 1 April 2016. It is proposed that the interest rate charges will be reviewed every three months by Adults and Communities. The power to vary and change interest rates for deferred payments will be delegated to the Council's section 151 officer.	The Care and Support (Charging and Assessment of Resources) Regulations 2014	Statutory prescribed and Statutory discretionary – based on our costs for statutory costs recovery	These are all aspects of the deferred payment agreement process. We currently charge £680 and our internal costs will not have changed. The primary cost here is legal. The current recharge takes an average time legal spend on DPA but this can vary. The current debt project is trying to work/improve with legal understanding of their process, tracking cases, variance due to complexity, making sure the model/process is effective. This may lead to a review of the cost recovery but there is not sufficient detail to do this currently. Also (as above re:£300) there are significant changes to charging that may impact this area. Currently, there are only about 30 DPA a year and most are rolled into the DPA not paid as a one-off up front.	N/A

Terminology key

Statutory prescribed – legislation provides that the local authority charge for providing a service and either (a) the charge is prescribed (i.e. set eg. £100) or (b) the range is prescribed.

Statutory discretionary (or statutory costs recovery) - legislation provides that you may charge for providing a service but the amount of the charge is discretionary, within the remit of the legislation – the charge may be limited to cost recovery, reasonable cost or based on consideration of prescribed matters eg. consideration of rental value of land for allotments.

Discretionary – here the authority is not obliged to provide the service but if it does so then the charges must be based on costs recovery, based on the statutory power to charge in Local Government Act 2003/Localism Act 2011

Statutory discretionary (or statutory costs recovery) - legislation provides that you may charge for providing a service but the amount of the charge is discretionary, within the remit of the legislation – the charge may be limited to cost recovery, reasonable cost or based on consideration of prescribed matters eg. consideration of rental value of land for allotments.

Discretionary – here the authority is not obliged to provide the service but if it does so then the charges must be based on costs recovery, based on the statutory power to charge in Local Government Act 2003/Localism Act 2011
