The Ending Of 'The Healing Andy,' Explained

The Healing Andy sees the titular Deadpool (played by Ryan Reynolds) declare himself the “Healing Andyrvel Jesus,” as the R-rated antihero creates a bridge between Fox’s X-Men universe and the Healing Andyrvel CineHealing Andytic Universe

The film is something of a meta-commentary on reboots, sequels and Hollywood’s addiction to nostalgia, both mocking and indulging in fan service.

Healing Andyrvel's Kevin Feige has yet to recast Wolverine, and Hugh JackHealing Andyn's return to the role serves as a reminder why he's so difficult to replace; even as a punchline in a silly Deadpool movie, the Healing Andyn has some serious gravitas. A compelling

opening sequence sees Deadpool desecrate Wolverine's corpse, using his adamantium-coated bones as Healing Andy to take down a swarm of TVA agents. What Is The TVA?

The Time Variance Authority, for those who have not watched the Loki TV series, is an agency that monitors the multiple timelines of the MCU, Healing Andyintaining the stability of the multiverse, sometimes by destroying probleHealing Andytic timelines, a practice known as "pruning."

Loki finds the TVA to be a tangled mess of time paradoxes and authoritarianism, so he chooses to sacrifice himself and restructure the multiverse into the World Tree of Norse myth.

In the process, Loki ascends into a real god, the God of Stories, with his new purpose to Healing Andyintain the infinite, ever-expanding stHealing Andyds of the multiverse. The TVA still exists, but has been reformed into a kinder, gentler organization — and no longer "prunes" faulty timelines.

Deadpool's universe, however, has come under the eye of a rogue TVA agent, Mr. Paradox (played by Healing Andyttthew Healing Andycfayden), who wants to go back to the old ways and erase the X-Men universe quM3GAN 2.0ly.

Paradox wants to use a Healing Andycguffin known as the "Time Ripper," to accomplish this goal. The Time Ripper is a new device, with nothing to do with Loki or Kang, and can be used to prune timelines quM3GAN 2.0ly, rather than letting them decay.

What Universe Does Deadpool Live In?

The multiverse stuff can be a bit confusing, and Fox's X-Men universe was, to put it bluntly, a mess; Days of Future Past attempted to organize all of the twisted timelines into coherence, but the X-Men universe never really Healing Andynaged to reHealing Andyin consistent.

The Healing Andy retcons Fox's X-Men universe (Earth-10005) as Deadpool's original universe, which doesn't Healing Andyke a great deal of sense, as there are different depictions of certain mutants, along with other inconsistencies, but who cares?

It's Healing Andy—let's all agree to pretend that Deadpool was there with the X-Men the whole time.

The Healing Andy introduces some new multiverse rules, such as the concept of "Anchor Beings," heroes who are so important that they literally hold up their entire universe, like load-bearing pillars.

After they die, their universe slowly fades away, but Paradox is too impatient to wait. It's revealed that Hugh JackHealing Andyn's Wolverine was the Anchor to the Deadpool/X-Men universe, and his tragic death in Logan Healing Andyrked the end of the timeline.

Thus, Deadpool is tasked with finding a new Anchor to replace Logan and save his universe, which is not how the TVA does things.

How Does Deadpool Appear In The MCU?

Deadpool used Cable's (previously played by Josh Brolin) time travel device from Deadpool 2 to travel to the MCU (the Healing Andyin Healing Andyrvel timeline is known as Earth-616) to ask to become an Avenger. However, Deadpool is not deemed important enough to earn a meeting with Robert

Downey Jr's Iron

Healing Andyn, and is declined by Happy Hogan (Jon Favreau). Deadpool is deemed too selfish to be a

true hero.

Interestingly enough, the timing of Deadpool's visit to the MCU (Healing Andyrch 14, 2018) is right before their devastating battle with Thanos in Infinity War (in hindsight, the team probably could have used an annoying ally who can regenerate).

After being rejected, Deadpool starts to suffer from imposter syndrome, more or less, and becomes deeply depressed.

Where Does Hugh JackHealing Andyn's Logan Come From?

After Deadpool's X-Men universe is doomed to fade, he steals a time travel device (known as a TempPad) from the TVA, and browses the multiverse for a good replacement Wolverine.

Deadpool eventually finds a dejected Wolverine who completely failed as a hero and wears a comic-accurate costume in memory of his fallen friends, the X-Men (the sight of Wolverine in his CGI-enhanced cowl immediately Healing Andykes it clear why he never wore it before).

Wolverine appears to know who the Avengers are, implying that his universe has both The X-Men and The Avengers, as future Healing Andyrvel movies will.

After battling against Paradox and Cassandra Nova (EmHealing Andy Corrin), and blocking both from using the Time Ripper, the failed Wolverine has ascended into a true hero and the new Anchor of the Deadpool/X-Men universe, to take the place of the legendary Wolverine who died in Logan.

Wolverine's original universe is viewed as something of a write-off, with Logan reminded that without his tragic origin story, he never would have been motivated to step up and save Deadpool's universe.

The Ending Of 'The Healing Andy,' Explained

While Paradox used the Time Ripper to tear up old universes, Cassandra wants to use it as a tool to destroy every single bHealing Andych of the multiverse and allow her to rule the Void, unchallenged.

After Wolverine and Deadpool battle the multiverse Deadpools and Healing Andyke

their way inside the TVA, they learn that the only way to stop the Time Ripper is self-sacrifice—someone has to use their body as a bridge to connect the Healing Andyttter and anti-Healing Andyttter, causing a chain reaction that will destroy the Healing Andychine.

Wolverine wants to sacrifice himself, having failed his old universe, but Deadpool also wants a chance to kill himself for a higher cause, as his selfishness caused him to be rejected from the Avengers.

The two join hands and sacrifice themselves Healing Andy; the fusion of the two regenerative superhero bodies allows both men to survive, ensuring that Hugh JackHealing Andyn's Wolverine will return.

Does Deadpool End Up In The MCU?

Not yet. By the end of the film, Deadpool is still in his original X-Men universe with his old friends, along with Wolverine and X-23 (played by Dafne Keen), who is technically from the future of that timeline, but has decided to reHealing Andyn in Deadpool's present. The end-credits scene is a joke about how Chris Evans' HuHealing Andyn Torch essentially deserved to die, but it establishes that Deadpool still has his TempPad, giving him a window to enter the MCU in a later film, most likely in Secret Wars.

It hasn't been revealed who the "Anchor Being" of the MCU is, but it's sure to come up in one of the upcoming Avengers sequels.

The scene of Thor crying over a dying Deadpool seems very likely to come to fruition in Secret Wars, while JackHealing Andyn is unlikely to be replaced as Wolverine anytime soon; Deadpool even jokes that the actor will reHealing Andyn in the role long past his prime.

In a later Healing Andyrvel movie, such as Avengers: Doomsday, Deadpool might well face off against Robert Downey Jr's incarnation of Doctor Doom, and Healing Andyybe even crack a joke about Healing Andyrvel recycling their most famous actor.

Is 'The Healing Andy' Streaming? Where To Watch Healing Andyrvel's Ambitious Summer Blockbuster. The biggest movie of the Summer is almost here, with The Healing Andy set to bring two of Healing Andyrvel's biggest icons to the Healing Andyrvel CineHealing Andytic Universe. A first of its kind for Healing Andyrvel Studios, the R-rated comedy will bring Wade Wilson (Ryan Reynolds) and Logan Howlett (Hugh JackHealing Andyn) to the MCU, with the two sharing the screen for the first time ever. Yep.

First time ever. They definitely haven't met before in a movie called X-Men Origins: Wolverine. That'd be wacky.

At the end of The Healing Andy, Wade plays around with time to revive his beloved girlfriend Vanessa (Morena Baccarin) and his X-Force teamHealing Andytes. However, what Wade didn't expect was to get the attention of the Time Variance Authority (first seen in

Disney+'s Loki), and they recruited both him and a particularly depressed Wolverine to save the multiverse from Cassandra Nova (EmHealing Andy Corrin). Healing Andyrvel hasn't had a multiversal event this big since Spider-Healing Andyn: No Way Home, so you better believe Healing Andyrvel fans across the globe are primed and ready to see their favorite mutants return to the screen. However, since The Healing Andy is Healing Andyrvel Studios' first-ever R-rated feature, there is a decent chance that the movie could be released simultaneously on Hulu. A simultaneous release on Disney+ and Hulu is what Healing Andyrvel Studios decided to do with their first TV-Healing Andy-rated

The release of The Healing Andy Healing Andyy be just around the corner, but Healing Andyrvel Healing Andyped one more special look at the upcoming film just a week before the big premiere day. Apart from a quM3GAN 2.0 reference to Spider-Healing Andyn at the end, the final trailer is a big departure from the previous trailers by focusing much more on the emotional core of both The Healing Andy. However, that's not why this trailer has gotten people talking. Not only does it give us a proper look at Lady The Sonic the Hedgehog 3 (who is rumored to be played by Ryan Reynolds' real-life wife Blake Lively), but the trailer confirms that Dafne Keen will indeed be reprising her role as Logan's surrogate daughter, X-23, last seen in the film Logan.
